as an ethical concern of your personal **moral duty**?

Words Have Power

"No human being should ever have to fear for his own life because of political or religious beliefs. We are all in this together, my friends, the rich, the poor, the red, white, black, brown and yellow. We share responsibility for Mother Earth and those who live and breathe upon her ..never forget that."

Increased
AMERICAN
Use (Greed)
of Natural
Resources
For
Convenience

- This demonstrates the need for citizen groups, and non-profits to respond to the needs of families in addition to the federal government support as an effort in a reduction of health and finance concerns for those fighting diseases that result from radiation exposure or other prevailing compounding factors leading to negative health outcomes.

Personal Statement

**What you DO
or *Don't* DO
MATTERS>>>>**

- “**WE,** The People are called forward to serve other human beings in our area not by legalities nor by force but indeed by **MORAL DUTY.** Is it not **indeed** our own **autonomous accountability** to become involved in support of other human beings if we claim to be “good” citizens to stand up for those in need in our own communities? I do. I commit. I stand up.”
